

next generation

logistics and materials management

NEW ENERGY | RENEWABLES | OIL & GAS | DECOMMISSIONING

The essential partner for global logistics and materials management

We provide specialist materials and equipment management from demand creation to fulfilment.

With approximately 1,500 employees covering nine countries, we serve major operators and service companies across six continents. With over 50 years of logistics and materials management knowledge, ASCO's experience and capability help our customers by transforming operational efficiency and continuously improving their processes.

LOCAL KNOWLEDGE, GLOBAL REACH

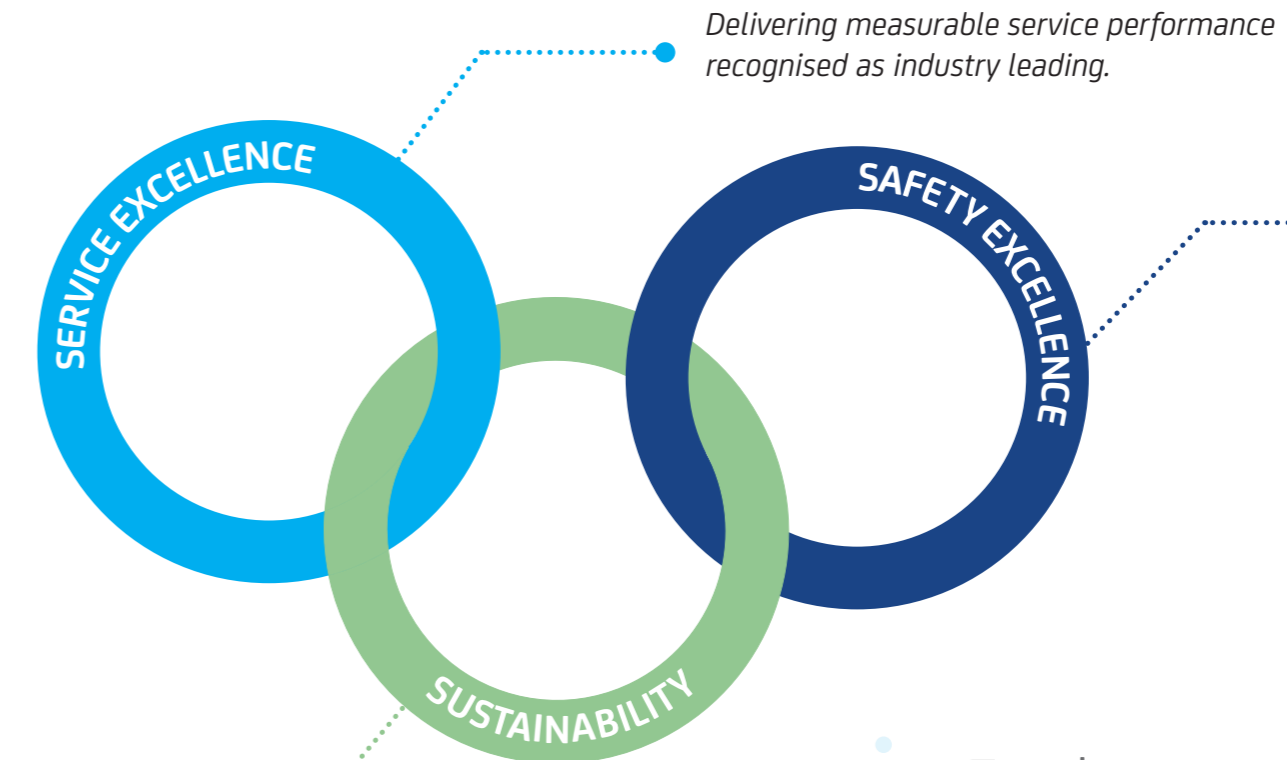

c. 1500 personnel worldwide

60+ operating locations

1.3 million tones of deck cargo handled annually

Safety Excellence, Service Excellence and Sustainability are our Fundamental Obsessions

Through these obsessions we deliver high value for our customers and employees, and are responsible leaders of our human, financial and natural capital.

Delivering measurable service performance recognised as industry leading.

Every moment, of every day we ensure safety is our obsessive priority.

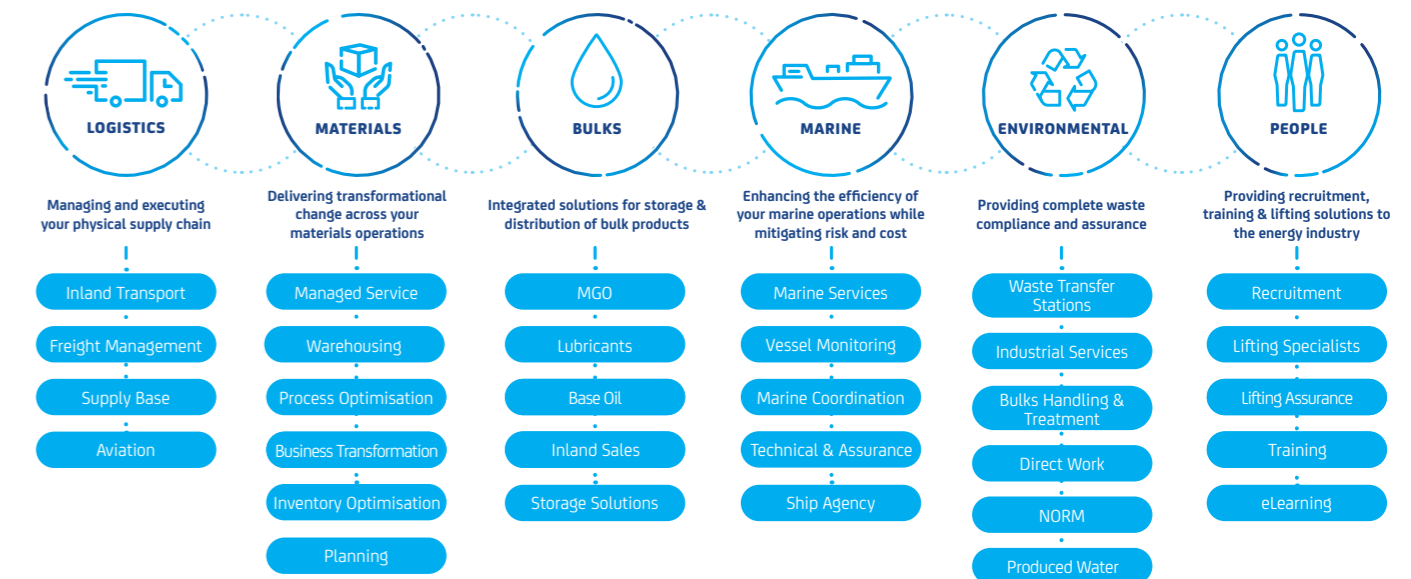

Responsibly managing our business for the long-term benefit of all stakeholders and the planet.

We are ASCO

ASCO delivers fully integrated logistics and materials management services to support specialist sectors including New Energy, Renewables, Oil and Gas and Decommissioning. We are uniquely positioned to provide for the end-to-end requirements of our customers, delivering enhanced control, service, safety and efficiency.

WHY CHOOSE ASCO?

Safe, lean, sustainable operations

We are committed to becoming a **net ZERO** greenhouse gas emissions business by 2040.

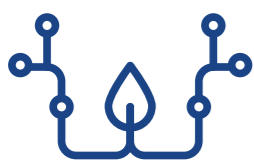

Maintaining operations with **ZERO disruption** and with excellent safety performance.

Minimising waste, maximising value – we aim for **ZERO waste** to landfill.

Forward planning, project management and procurement **throughout the project lifecycle**.

Through digitalisation and smart technology, we **streamline our operations**. The Group's innovative processes and systems mean the company is at the forefront of driving supply chain efficiency.

Enabling you to achieve your objectives

We work hard to be your first choice for logistics and materials management.

Our focus is on improving the efficiency of your operations and we do this through our core differentiators: our people, processes, systems, locations and solutions.

People
An experienced team built to meet your needs.

Systems
Helping you make informed data-driven decisions.

Processes
Proven processes that work for you, globally and consistently.

Locations
Strategically located infrastructure to support your operations.

Solutions
Bespoke solutions that deliver on your objectives.
