ASCOWORLD.COM

logistics and materials management

ASCO is the essential partner for global energy logistics and materials management. We work with the world's largest operators to deliver safety and service excellence while sustainably managing our business to protect our planet for the next generation.

We work collaboratively to find safe, cost-effective, efficient, and lean solutions to solve specific challenges and meet our client's future needs, enabling them to extract more value from their operations.

THIRD PARTY LOGISTICS (3PL) - PERTH

As a 3PL service provider, we can assist with your warehouse storage needs, materials management and transport services, especially for clients requiring a Perth-based consolidation facility for their linehaul activity.

WAREHOUSING

- Providing fully managed solutions
- Lean, ergonomic design and layout
- Optimised material and information flow
- Improved operations with a focus on safety

FULFILMENT

- Best practice from leading industries
- Improved process control and automation
- Simplified work execution
- Improved demand planning

INVENTORY

- Process transformation and simplification
- Providing maximum value from your inventory
- Increased material visibility and availability
- Reduced risk to your business

To discuss how we can support you, please contact:

Kelly Bembridge - Sales Representative

Visit our website for more information on our services

Let us manage your materials from our Perth warehouse.

How will you benefit?

- Located with easy access to major arterial highways for transfer to the northwest and the Perth Basin.
- Streamlined materials and logistics processes.
- Utilisation of experienced personnel with track record of supporting materials management projects.
- Leverage of the multi-skilling approach deployed by ASCO to provide cost effective contingency personnel.
- Provision of all infrastructure, personnel, plant, equipment and supervision.
- Continuous improvement through deployment of systems, process enhancement and reduction of process waste.
